

About the social experiment of door-to-door garbage collection service

Door-to-door garbage collection service is a method where garbage is picked up from doorsteps of each house. In Chigasaki-city, the social experiment of door-to-door garbage collection service started in certain areas in April 2025. For more details, please refer to the information provided below and on the backside. We greatly appreciate your understanding and cooperation in this initiative.

Purpose of social experiment	To research the impact and effect of door-to-door garbage collection service on the community association, the person who takes out garbage, and local government (Chigasaki-city) .
Examination matters	The amount and composition of garbage, the advantages and disadvantages of door-to-door garbage collection service, and the cost.
Terms of the social experiment	From the beginning of April 2025 to the end of March 2026.
Target areas	<p>Saiwai-cho (幸町) Serizawa (芹沢) Tomoe 1-chome (共恵一丁目) Tomoe 2-chome (共恵二丁目) Nakakaigan 1-chome (中海岸一丁目) Hamatake 4-chome (浜竹四丁目) Higashikaigankita 1-chome (東海岸北一丁目) Higashikaigankita 2-chome (東海岸北二丁目)</p> 
Target garbage	Burnable garbage only. Please place other garbage and recyclables on the designated site by neighborhood as before.
Changes since the last time	The site where you place garbage on and the collection time. The process of separating and disposing, the collection days and frequency, and the time to take out your garbage have not changed.

■ How to dispose of burnable garbage for those who live in a house

▶ Please place burnable garbage along your property at the roadside, before the entrance or gate.

Note: Try to put burnable garbage in containers to prevent it from being scattered by animals, such as crows and cats. Also, please secure containers and nets so strong winds do not blow them.

■ How to dispose of garbage for those who live in an apartment house

▶ Please place garbage on collection site on your premises. We can not collect garbage even if placed before your room.
